

### Technical data

- Thermostatic mixing valve ESBE VTA572 (10–30°C)
- Manometer: 0 - 10 bar
- Flowmeter : 8 - 38 l/min
- Anti thermosiphon valve: Opening pressure 20 mbar, Manual opening possible
- Pressure relief valve 6 bars (¾" female)
- Filling and draining valve (¾" male)
- Thermometers
- Deaerator
- Expansion tank connection ¾" male

### Product

### Dimensions

- 1" male fittings inlet & outlet
- DN15 piping
- Distance between pipes : 10cm
- Overall dimensions 59 cm x 33 cm x 18 cm
- Wall mount (2 screw supplied)
- Insulation of the bottom part against condensation needs to be done

### Pressure drop (20°C)
